

FB Messenger integration for groups/multiple locations

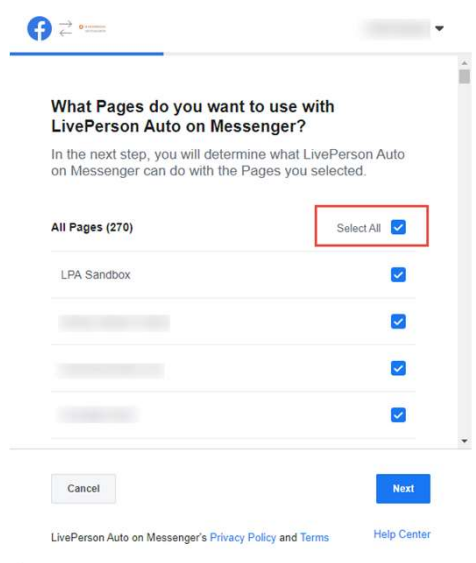

1. Log into the Portal account, go to Provisioning > Chat Network Provision.
2. Click Add next to FB Messenger.

3. Click the blue Log in with Facebook button. The screen will then prompt you to login and/or continue if you're already logged in.

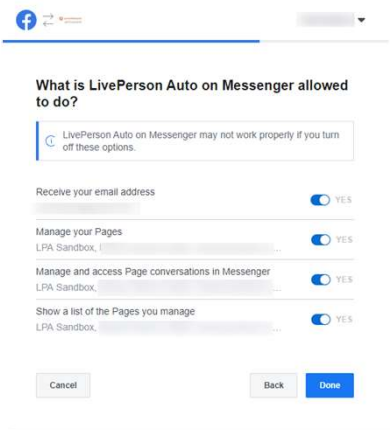

4. Select all pages then click Next.

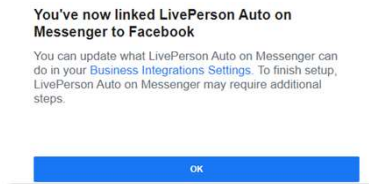

FB Messenger integration for groups/multiple locations

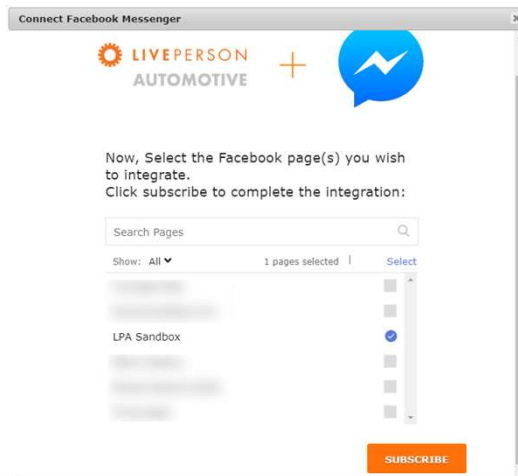

5. Do not edit the permissions. Click Done.

6. Click OK.

7. Select the one page you wish to associate with this one chat account, then click Subscribe.

8. Repeat these steps for all accounts in the group.
